REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a method for isomerizing the claimed aromatic compounds in which the catalyst contains a zeolite as claimed having the claimed crystal sizes. There is nothing in the prior art to suggest to one having ordinary skill in the art to reduce crystal sizes to the claimed range and then use these zeolites to isomerize the specific aromatic compounds.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
